Do you need a **PLU**?

**NEW - ACLD TECHNOLOGY PLU - NEW**

**SPONSORED BY TECHNOLOGY IN MOTION & THE UA IN-SERVICE CENTER**

Register via [https://pdweb.alsde.edu](https://pdweb.alsde.edu)

**PD Title #** PLUACLD558

**PD Title:** Digital Citizenship, Literacy, Online Safety and Cyberbullying

**Registration Deadline:** Friday, October 6, 2017

**Meeting Location:** The UA/UWA In-Service Center - [http://inservice.ua.edu/directions](http://inservice.ua.edu/directions)

Digital Citizenship, Literacy, Online Safety and Cyberbullying is a hybrid professional learning group that provides face-to-face and online content to support educators as we educate staff members and students in the appropriate, safe, ethical and legal use of technology.

The purpose of this professional learning unit is to develop an implementation plan so that schools and LEA’s have practical hands-on strategies for educating teachers, students, and parents in digital citizenship. School leaders will explore best practices and look at several successful digital citizenship initiatives as they develop strategies for implementation of successful digital citizenship training. Participants will discuss ideas and strategies with other leaders and apply them to their own digital citizenship implementation plan.

The Alabama Technology in Motion Specialist will facilitate three group meetings, and participants must attend all meetings. In addition to meetings, members will meet work online and complete an implementation plan for training educators and students.
